<b>Editorial</b>	<b>4</b>
<b>Executive Summary</b>	<b>5</b>
<b>Introduction</b>	<b>9</b>
<b>Background</b>	<b>11</b>
1. The future climate of Switzerland	12
2. Extreme events	17
3. Basic estimate of other climatic variables	18
4. Impact of climate change on the hydrological cycle	21
<b>Land ecosystems</b>	<b>25</b>
1. Introduction	26
2. Biodiversity	29
3. Natural hazards and living space security	34
4. Use and products of ecosystems	38
<b>Agriculture</b>	<b>41</b>
1. Introduction	42
2. Domestic plant production	44
3. Extreme weather events	45
4. Yield security	46
5. Water supply and location	47
6. Pests and their relevance	47
7. Food production from livestock	49
8. Measures for crops, cultivation methods and farm management	50
9. National and global food supply	52
<b>Water management</b>	<b>55</b>
1. Introduction	56
2. Changes in natural waterbodies	58
3. Water-related natural hazards	60
4. Water supply and demand	63
5. Water use	64
6. Intensified management of water resources	65
<b>Health</b>	<b>67</b>
1. Introduction	68
2. Heat waves	70
3. Other extreme events: floods, landslides, storms	72
4. Food poisoning	74
5. Respiratory diseases and allergies	74
6. Vector-borne diseases	76
<b>Tourism</b>	<b>79</b>
1. Introduction	80
2. Change in offerings and demand due to climate	82
3. Impact of climate change on natural tourism offerings	83
4. Impact of climate change on tourism in Switzerland	86
5. Strategies and measures	91
6. Tourism in the year 2050	93

<b>Energy</b>	<b>95</b>
1. Introduction	96
2. Energy consumption	98
3. Established electricity production	101
4. New renewable energy	103
5. Economic aspects	106
<b>Buildings and Infrastructure</b>	<b>109</b>
1. Introduction	110
2. Buildings	112
3. Transport networks	116
4. Urban water management	120
5. Urban settlements	121
<b>Urban Switzerland</b>	<b>123</b>
1. Introduction	124
2. Switzerland as an urban system	125
3. Scenarios and key factors	126
4. Population development	127
5. Urban development	128
6. Development of building stock	131
7. Development in transport and communications	132
8. Development of resource availability	134
9. Development of relationships and dependencies between the Swiss urban system and the global environment	135
10. Conclusions	136
<b>Insurance</b>	<b>137</b>
1. Introduction	138
2. How does insurance work?	139
3. Claims experience	141
4. Future perspectives	143
5. Impact on insurance and measures taken by insurers	146
<b>Synthesis</b>	<b>153</b>
1. Introduction	153
2. Creeping changes	154
3. Extreme events	155
4. Water cycle and water resources	157
5. Space	159
6. Changes for humans	161
7. Concluding remarks	161
